Become an ECSI Instructor

At ECSI, our mission is to make life-saving training affordable and accessible to as wide a population as possible. That's why we're pleased to provide multiple paths to instructorship. Whether you have years of emergency care teaching experience or are brand new to training, we're here to help.

There are two ways to become an ECSI Instructor.

Before you move on to complete the instructor application, you should know that you'll need to associate yourself with one of our current Education Centers in order to complete the process. If your training center or your employer is not already approved as an [ECSI Education Center](#), you or your employer will need to complete the Education Center application first.

1

1. Ask for Instructor Reciprocity

THIS PATH IS RIGHT FOR YOU IF YOU:

- Have adequate content knowledge in the course(s) you would like to teach (i.e., CPR or first aid)
- Can demonstrate adequate teaching experience (i.e., instructor for another nationally recognized training organization)

I MEET THESE REQUIREMENTS.
I'M READY TO APPLY!

2

2. Complete an Instructor Development Course

THIS PATH IS RIGHT FOR YOU IF YOU:

- Have content knowledge but little or no teaching experience
- Would like to learn how to train others to perform life-saving skills

SOUNDS GOOD. I'M
READY TO LEARN MORE.
